Does this mean we are requesting more in representation funds than in past years?

Hi Holly,

I spoke a bit more with folks to clarify this:

Only certain expenses involved in the CEC chair role need to utilize representation funds. There are other costs (such as travel as you note).

In the past, the \$10,000 for CEC representation has been adequate to fund the CEC needs. OA and OITA have typically met to discuss which costs apply to the representation funds.

OA has \$9,000 each year for their representation fund needs, apart from CEC. They currently have \$1495 in carryover remaining from last year.

Hope this helps.

Hi Carol, thanks!

To confirm- \$10,000 is for the CEC, and then OA and OITA coordinate to determine how much of the \$9,000 can also be used for CEC?

And travel is outside of the \$19k representation fund, funded from OITAs regular budget?

Hi Holly,

Oh yes, that would be correct. The OA has \$9,000 each year and then an additional \$10,000 is added to allow for the CEC role. The funds are issued to OA and as I understand it, the two offices meet to review needs once OITA has developed estimates of the costs.

FYI we did provide OITA with \$19,000 in regular non-pay above their last year level. OITA likely would have some additional non-representation fund costs such as travel. (Op plan provided some carryover funds to restore their overall level plus a bit more due to CEC activities -- the match on the amount above FY 2017 is coincidental)

Thanks Carol. I believe the OITA folks think they have less than that. Is the \$19k all for the CEC or also for the regular reception budget OA receives?

Thank you.

Hi Holly,

Yes, it does include the \$19,000

We'll check on the carryover

Subject: CEC funding

Hi all,

Does the enacted FY 18 budget includes \$19,000 for the CEC, as we expected?

Is there any carryover available for this conference as well (back in January there was \$2600).

Thank you!
